**Subject:** payback percentages

Mr. Barrett,

Penny Coleman forwarded your e-mail to me for reply.

The current draft of the technical standards does not set a percentage for a minimum payback percentage for Class II games. I will place your question, and any follow-up comments you wish to make, into the pool of formal comments to the technical standards to which the Commission will respond when the standards are published as proposed rules in the Federal Register.

**Subject:** Minimum Payback Percentage

Has the NIGC considered setting a minimum payback percentage for Class II games?  
The variable used in the draft technical standards on page 89 is MINRTP.

I believe that the minimum in Nevada is 75% and New Jersey is 83%
